PROFESSIONAL SUMMARY

Economics graduate from Singapore Management University with professional experience in financial services and Global Markets operations. I enjoy working in fast-paced environments that require stakeholder management and solving time-sensitive problems. I am motivated by opportunities to build long-term client relationships, collaborate across functions, and continuously improve processes. Outside of work, I am an active Salsa dancer and have a keen interest in the automotive industry, supported by prior experience in motor claims and automotive service advisory.

WORK EXPERIENCE

Senior Analyst, Margin Lending | Goldman Sachs

May 2025 - Present

- Manage daily validation and issuance of margin calls for Futures and OTC clearing clients, ensuring compliance with exchange regulations and internal risk policies.
- Partner with FX, Sales, and Operations teams to facilitate client order execution in restricted markets and ensure timely fulfilment of margin obligations.
- Act as the primary point of contact for margin-related queries, supporting 5–10 Asia corporate clients daily and delivering timely resolution of complex client issues while maintaining a high standard of service.
- Drove client onboarding initiatives, successfully migrating 10% of existing Asia clients onto new platforms through proactive outreach and stakeholder coordination.
- Developed 5 VBA automation tools that streamlined manual processes, reduced operational touch points, saved approximately 3 hours per week, and enhanced control and risk management.
- Investigated and resolved operational breaks by coordinating with cross-functional teams to identify root causes and implement sustainable process improvements.

Management Associate | Singlife

Jul 2024 – Apr 2025

- Partnered with Distribution, Product, Operations, Legal & Compliance, and Marketing teams to gather business requirements and align digital initiatives with business objectives.
- Translated business requirements into user stories, functional specifications, and acceptance criteria to support successful Agile delivery.
- Facilitated sprint planning, backlog prioritisation, refinement sessions, and sprint reviews, improving delivery efficiency and team performance.
- Led an Agile squad through 2-week sprints to deliver a complete overhaul of the adviser self-service portal within a 6-month project timeline.
- Developed financial models to forecast 2025 distribution income and expenses, achieving approximately 70% forecast accuracy for Q1 actual results.
- Built interactive Power BI dashboards to analyse incentive payouts, providing data-driven insights that optimised incentive allocation and improved cost efficiency.

EDUCATION

Bachelor of Science, Economics | Singapore Management University

Aug 2020 – May 2024

Graduated with Cum Laude (GPA: 3.59/4.0)

Activities:

- SMU Economics Society Executive Committee (Honorary Finance Secretary)
