About Me

I graduated from Singapore Management University in 2024 with a Bachelor of Science in Economics and started my career in the financial services sector. I enjoy working in roles that require problem solving of time-sensitive issues and client facing roles that require relationship building. Outside of work, I stay active through being a Salsa dancer, having previously performed in multiple school productions. I also have interests in automotive, where my experience in motor claims and service advisor prior to university allowed me to gain insights and technical knowledge of the sector.

Experience

Goldman Sachs – Margin Lending, Cleared Collateral

May 2025 – Present

- Execute daily validation and issuance of margin calls for Futures and OTC clearing clients, ensuring compliance with exchange obligations and internal risk requirements.
- Collaborate with FX, Sales, and Operations teams to execute client orders in restricted markets.
- Serve as primary client contact for margin-related queries for 5-10 Asia corporate clients daily and resolving client issues while delivering high service standards.
- Successfully onboarded 10% of existing Asia clients onto new platforms through proactive outreach.
- Created 3 VBA tools, reducing manual touchpoints, saving 2.5 hours weekly and lowering operational risks.
- Resolve breaks by collaborating with cross-functional teams to identifying root cause and implementing fixes.

Singlife – Management Associate

Jul 2024 – Apr 2025

- Liaise with Distribution, Products, Ops, Legal & Compliance and Marketing to gather business requirements.
- Write user stories, functional description and acceptance criteria for digital initiatives.
- Perform sprint planning, backlog refinement and prioritisation, and sprint reviews to improve squad performance.
- Managed an Agile squad to deliver project requirements in 2-week sprints, delivering an overhaul of the adviser self-service portal within 6 months.
- Perform User Acceptance Testing (UAT) for projects to ensure requirements are fulfilled and bug-free.
- Created spreadsheet models to predict 2025 distribution income and expenses, with a 75% accuracy for Q1 results.
- Built PowerBI dashboards to visualize incentive payouts, leveraging insights from the visualization to increase spending impact and reduce cost.

Bentley Motors Asia Pacific – Business Analyst Intern

Jun 2023 – Dec 2023

- Performed regional sales performance analysis for 23 dealers in 12 countries across APAC region.
- Developed interactive dashboards on Excel and PowerBI for easy visualisation of datasets.
- Revamped existing data input methods through advanced spreadsheet formulas, reducing input time by 75%.
- Spearheaded 3 projects for forecasting, planning and regional performance steering
